BULLETIN #: PB-2006-01
ISSUE DATE: October 17, 2006
SUBJECT: PART NUMBER REVISION FOR HAMMERHEAD LIFE PRESERVERS

In order to meet the specialized labeling requirements of various user groups, Tulmar has revised the part numbering system for the Hammerhead Tactical Life Preserver. Effective immediately, part number 6760 will be reserved for military users. Part number 67000 has been assigned to all other tactical users. Non-military customers who have ordered 6760 previously should in future order 67000.

This part number change has no impact on product functionality. Part number 67000 (Rev A) is identical in configuration and incorporates all of the product specifications of the current revision of part number 6760 (Rev G) with the exception of the product identification labeling.

For further information concerning life cycle management of the Hammerhead Tactical Life Preserver, please contact:
