

TULMAR

ARMORED VEHICLE SUPPLY CHAIN SOLUTIONS

**WE KNOW THAT IN THE FIELD,
OUR FIGHTING MEN AND WOMEN
DON'T GET A SECOND CHANCE.
WE HAVE TO GET IT RIGHT THE
FIRST TIME—AND WE DO.**

Tulmar Safety Systems is proud to supply more than 1200 protective products for armored vehicle programs including vehicle stowage solutions, seating systems and crew restraints.

Since 1992, we have been designing, fabricating and servicing engineered protective textile products for the international defense market, meeting the stringent demands of OEMs and defense end-users.

And that's not all. We assemble and kit components and mechanical sub-assemblies for a range of vehicle programs including the **MTVR, LAV II, LAV II-25A, LAV III, Stryker, FMTV, RG-31 and RG-33**. For the LAV and Stryker vehicles, for example, we provide steering assemblies, mirrors, evaporator housings and seven different seat systems.

Our clients depend on us to overcome complex supply logistics, to reduce costs, shorten lead-times and deliver high-quality parts and sub-assemblies on time.

WHY CHOOSE TULMAR?

RESPONSIVENESS

Our rapid quote response and order turn-around time saves you time and money.

FLEXIBILITY

You can get exactly the service you need: component sourcing, build-to-print manufacturing, assembly and kitting, or custom-engineered solutions.

ENGINEERING EXCELLENCE

Our personnel draw on more than 20 years of experience sourcing, engineering and building parts specifically for Department of Defense and OEM programs.

COMPLETE SUPPORT SERVICES

Our procurement and manufacturing programs are supported by a QMS designed to the ISO 9001:2008 Standard and a qualified vendor base for mil-spec fabrics, fasteners and components.

BUILT-IN EFFICIENCY

We have streamlined our production processes through Lean Manufacturing to keep our costs competitive and to maximize our production capacity.

EASE OF DOING BUSINESS

We value long-term relationships and actively look for ways to make doing business with us easier in order to build lasting supply relationships.
