6438-302	PBE Box Assembly - Left
6438-301	PBE Box Assembly - Right

FEATURES

REALISM

Our PBE feels and operates like the real thing. The training PBE comes complete with a simulated ignition candle, rear actuation pin, head band and weighted dummy O₂ generator. The hood is similar shape, colour and weight to the OEM PBE.

EASE OF USE

The O₂ generator candle is reset in seconds by repositioning the plunger with a finger. No need for special tools.

DURABILITY

We use robust materials that can withstand the rigors of the training environment.

WASHABLE

The PBE can be completely dismantled so the textile portion of the product can be placed into a conventional wash machine.

REPAIRABLE

Tulmar can provide repairs to textile portion of the PBE and provide replacement parts that experience wear through repeated use.

NON-LATEX NECK PIECE

Our standard neck piece is now EPDM rubber. We can offer latex or non-latex replacement neck pieces.
