

TULMAR

HAMMERHEAD™ TACTICAL LIFE PRESERVER

THE HAMMERHEAD™ TACTICAL PFD

An extreme-buoyancy, constant-wear Tactical PFD designed specifically for maritime tactical operations. With 65 lbs (289 N) of buoyancy, the Hammerhead provides the ultimate in protection for Special Operations and Tactical Response Units carrying tactical weights of 50 lbs or more. Comfortable and lightweight, the PFD does not interfere with tactical vests or ballistic protection.

The Hammerhead can be integrated with a Yates™ or similar climbing harness and can accommodate a hydration system. Quick-release hardware enables easy donning and doffing. Actuation can be manual or automatic.

FEATURES

- Comfortable and lightweight
- Easily re-armed and packed in the field (arming kits sold separately)
- Non-interfering with body armor, tactical vests or combat helmets
- Quick-release hardware enables rapid donning & doffing
- Can be integrated with climb harness, tactical or ballistic vests
- Discreet color - all black including hardware
- Can be fitted with water activated-sea light, visible or IR (sold separately)

TULMAR

HAMMERHEAD™ TACTICAL LIFE PRESERVER

INFLATION SYSTEM
