

Technical Service Bulletin

Kit, Inflating/Deflating, Raft

ISSUE DATE:	AUG 25, 2014	TSB NUMBER	TSB-14-001
--------------------	--------------	-------------------	------------

HAZARD / URGENCY RATING	
	DANGER – Injury possible if TSB not observed or followed
	WARNING – Product damage possible if TSB not observed or followed
	CAUTION – Essential issue affecting operation, service, or parts
X	INFORMATIONAL – Advisory which may be of interest

APPLICATION:

This Technical Service Bulletin applies to Life rafts that Tulmar has manufactured with the following part numbers:

- 6152 – Life raft, 1XL (NSN 4220-21-846-5885)
- 6141-CO2RO – Life raft, 6XL (NSN 4220-21-812-5478)
- 6143-CF – Life raft, 10XL (NSN 4220-21-869-4417)
- 6269 – Life raft, 20XL (4220-21-904-1745)

SUMMARY:

This Technical Service Bulletin is to announce the availability of Tulmar Kit # 5685-001 to inflate/deflate the above list of life rafts. The kit allows the use of a standard industrial compressed air line operating at pressures ranging from 50 psi to 150 psi.

Kit # 5685-001 includes the following components (*See Fig. 1*):

- Vacuum generator 10 CFM minimum flow
- Digital pressure gauge
- Tool Manifold with inline valve, fittings and Digital pressure gauge
- Flexible hose 3/8", 4' long with fittings
- Digital pressure gauge with 1/4" plug
- PAM valve adapter
- Mirada valve adapter
- Oral valve adapter
- Military style waterproof plastic case
- Operation manual & Equipment list

IMPACT:

This Kit has been designed to ensure that DND ALSE shops are using a consistent, traceable set of tools that will no longer generate non-conformance reports.

ACTION:

Shops currently using tools for the inflation/deflation of life rafts leading to non-conformance reports are to replace them with Tulmar's Kit # 5685-001.
