TACTICAL CATALOGUE

2022 Edition

TULMAR TACTICAL

ENGINEERED FOR PROTECTION

TACTICAL PRODUCTS

Tulmar designs and manufactures various tactical equipment, all available for sale. These are targeted for security activities, such as first responders, fire services, police and disaster response teams.

Our products are proven reliable and in use around the world.

HAMMERHEAD PFD & ACCESSORIES

Hammerhead™ Personal Flotation Device

67006 & 67007 Series

Tulmar's Hammerhead™ (patent protected) is an extreme-buoyancy, constant-wear tactical PFD designed specifically for Waterborne Tactical Operations. With 65 lbs (289 N) of buoyancy, the Hammerhead™ provides the ultimate in protection when carrying tactical loads of 50 lbs or more. Comfortable and light-weight, the PFD does not interfere with tactical vests or ballistic protection. The Hammerhead is designed to be integrated with a Yates™ or similar climbing harness. Quick-release hardware enables easy donning and doffing. Automatic actuation convertible to manual mode.

The Hammerhead Tactical Life Preserver comes with bobbins and cylinders installed.

*CD-ROM: User's Manual & Instructional Video available at no charge.

Re-Arming Kit

Re-arming kits are available to purchase for convenience. These include:

- 2x CO² Cylinders
- 2x Bobbins
- 2x Clips

These kits are also available on our online store at www.tulmarstore.com.

Bobbins – Pack of 100

- Bobbin, Auto Inflator NSN 8465-21-911-8541

These kits are also available on our online store at www.tulmarstore.com.

Manual Inflator Caps

3219-100

Inflator Caps, Manual (Yellow Indicator), Set of 2 caps to convert automatic inflator to manual mode.

Stand-alone Harness

67303

Stand-alone Harness – with waistband and leg loops (for applications that do not require a climb harness).

TULMAR

NEXT GENERATION TACTICAL LIFE PRESERVER

Adaptively Optimized for Tactical Operations

Developed from over 30+ years experience in the design and development of tactical flotation systems for maritime special operations forces and tactical law enforcement agencies.

- Streamlined low profile shooters cut allows unimpeded weapons handling, climbing, rappelling, fast roping, and confined space movement.
- Lightweight and highly compact, yet durable; built to withstand the rigors of tactical training and operational environment use.
- Provides 40+ lbs of self-righting buoyancy.
- Easily attaches and integrates with most MOLLE/PALS tactical armor systems.
- Re-arm and re-pack in less than 5 minutes under maritime operational conditions with no tools required.

Size	Universal
Weight	1.25lbs / 0.57kg
Inflation System	Automatic & Manual activated CO ²
Buoyancy	40+lbs / 180 N

Ergonomic design allows full range of motion and weapons handling

TUL-BAR attachment system maximizes available MOLLE / PALS real-estate while securing life preserver to armor carrier.

TULMAR

Available in 2022. Tulmar is seeking qualified opportunities for Trial & Evaluation feedback. US and international reseller/distribution opportunities available. For more details contact military@tulmar.com.

TULMAR

LIFERAMP RESCUE SYSTEMS

EASY TO SETUP - FITS ON YOUR VEHICLE

LifeRamp is ideal for use where most rescue systems become unsafe — on land or in a watercraft. Its tough neoprene chamber inflates in 8 to 12 seconds to get your rescue team onto the water fast! Using a ramp-to-ramp coupling line, two LifeRamp platforms of similar length can work in tandem to leap from ice floes or get around obstacles and reach victims by the shortest possible route. The LifeRamp is compact and available in 5 different sizes designed to fit in your boat or truck.

Model	Configuration	Weight
LR-10'	Single Chamber	28 lbs
LR-15'	Dual Chamber	42 lbs
LR-30'	Dual Chamber	78 lbs
LR-50'	Dual Chamber	90 lbs
LR-80'	Dual Chamber	190 lbs

TULMAR

PERFECT FOR MOBILE COMMAND SHELTER

Setup is quick and easy. The shelter inflates in less than five minutes.

PRODUCT INFO & SPECS

Tulmar's inflatable shelter system was developed to meet the requirements of emergency responders who required rapidly deployable shelters. The modular design allows canopies, end walls and floors to be easily detached for repair or replacement. Interconnect panels are available to join multiple shelters for custom configurations. Can be erected in less than five minutes—simply unpack from valise and inflate.

Shelter Footprint	Interior Square Footage	Packed Dimensions	Weight
3.7 M X 4.6 M	17 sq M	61 cm X 61 cm X 135 cm	102 kg
12 FT X 15 FT	180 sq FT	24 in X 24 in X 52 in	225 lbs
4.5 M X 6.1 M	27.5 sq M	71 cm X 71 cm X 152 cm	168 kg
15 FT X 20 FT	300 sq FT	28 in X 28 in X 60 in	370 lbs

Material is rated to operate from -30C - 60C to -22F -140F

The exposed parts of the Tulmar shelter are constructed with anti-fungus, anti-mildew, antibacterial and antimicrobial treatments.

The interior structure is made with anti-mildew and anti-fungal material. This preserves the integrity of the shelter.

DO NOT CROSS

CRIME SCENE DO NOT CROSS

CRIME SCENE DO NOT CROSS

RUGGED DESIGN FOR ALL CONDITIONS

Withstands extreme weather, temperatures, and climates.

FEATURES

1. UV resistant canopy
2. Includes an electric blower for inflation
