MAINTENANCE, REPAIR AND  
OVERHAUL CAPABILITIES

We are committed to providing our customers with service solutions and are continually increasing our investment in equipment and training to further develop our capabilities.

Tulmar's maintenance, repair and overhaul capability meets civil aviation and military standards.

We inspect, repair and re-certify a wide range of aeronautical safety equipment, maritime life support equipment and military ground support equipment.

All repairs are done using OEM parts and processes to ensure technical compliance.

Tulmar is conveniently located between Ottawa and Montreal with easy access to Dorval, Mirabel and Ottawa airports. AOG service available upon request.

## **MRO** CAPABILITIES

### **LIFE SUPPORT EQUIPMENT**

Tulmar provides maintenance, repair and overhaul of aviation life rafts and life vests. We stock OEM replacement parts and furnish a complete range of ancillary equipment, survival kits and first aid kits. We have the specialized tooling to vacuum pack life rafts. Hydrostatic testing and refilling of gas cylinders and inspection of ELTs is done in-house to reduce service lead times.

### **SEAT RESTRAINTS**

As an authorized repair station for AmSafe, the world leader in aviation restraints, Tulmar provides the Canadian aviation market with complete MRO services for AmSafe aviation seat restraints. We repair and recondition AmSafe passenger lap belts, multi-point crew harnesses and aviation airbag restraints.

### **CARGO NETS**

Tulmar is an authorized repair station for AmSafe Bridport aviation cargo control products. We repair and overhaul cargo door nets, divider nets, belly hold nets and more. With full access to AmSafe technical manuals and OEM parts, we can ensure that overhauled products meet airworthiness requirements.

### **GROUND SUPPORT EQUIPMENT**

Tulmar provides cleaning, inspection, repair and modification services for a diverse range of military equipment, including camouflage nets, tarpaulins and tactical shelter components. A complete program management approach with integrated logistics and quality assurance ensures cost control and rapid turn-around.
